Sailors Seriously Ill.

Two sailors, both apparently seriously Ill, were taken today from the steamer Seguranca, which arrived from Colon, and Isolated in the pesthouse on Swinburne island. Eight more of the crew, who had been Ill during the voyage, but were convalescing, and seven passengers, two from the cabin, all of whom showed increased temperatures, were taken to Hoffman island for detention until the results of blood examinations are known. In addition to these, two suspects were taken to Hoffman island today from the steamer Eldorado, from New Orleans, and there remain on the island six cases from the steamer Avon, which recently arrived from Colon.

#### Release Texas Suspects.

Health Officer Optimistic. "The two worst cases," he said, "may possibly be yellow fever, but even this is not likely. Eight of the crew were about as sick five days ago as are the two who were carried to the hospital today. These eight are now much improved, a condition which would be quite unlikely if yellow fever had been their allment. There is good reason to believe, therefore, that the other two sick men, who became ill only two or three days ago, have the same the other two sick men, who became in only two or three days ago, have the same complaint, and will recover just as rapid-ly. I feel quite confident that the eight convalescents are not yellow fever cases, but I will make no definite statement either that it is or is not yellow fever until the blood and other tests settle the matter conclusively."

Victoria Court Rebukes Collins for Talking Too Much.

VICTORIA, B. C. July 25.—The charge that George D. Callina, accused of perjury at San Francisco and lighting vigorously skalnst extradition, had tampered with a witness, A. J. Henry, notary of San Francisco, may yet be investigated, although Judge Lampman has not taken cognizance of the matter. Today, when Collins's counsel was objecting to an interview with Henry, published in the Victoria Colonist, claiming that both Henry and the newspapers were in contempt of court, Mr. Higgins, counsel for prosecution, said he did not propose to go into this matter now to delay the proceedings. The matter now to be cursidered was whether Collins was to be extradited or not, but he said he could prove with three witnesses under oath that Collins had tampered with the witness. "And you'll be called upon to prove it," said Collins.

"I am quite prepared to prove it," replied Mr. Higgins.

Mr. Higgins.

Mr. Higgins said that Collins had given the first interview and Henry had given another contradicting the statements the accused made. The court said both had been blamable to discussing the matter in the press, rather than coming to the court Higgins said Collins had been continually going to the local presswith statements. Judge Lampman said these interviews were, he supposed, designed to be telegraphed to San Francisco. He did not go into the matter, which he said, was one which touched Mr. Justice Duff.
